

# Provost's Inaugural Lecture

**Terence S. Dermody, MD**, the Vira I. Heinz Professor and chair of pediatrics and professor of microbiology and molecular genetics, School of Medicine, will deliver a Provost's Inaugural Lecture, **"The Amazing Assembly Mechanism of a Viral Nanomachine,"** at 4 p.m. on **Tuesday, April 2**, in **Lecture Room 6, Scaife Hall**. [\[View on University Calendar\]](#)

The Provost's Inaugural Lecture series invites University of Pittsburgh faculty members to give a lecture marking their recent appointments to endowed chairs. Dr. Dermody is physician in chief and scientific director at UPMC Children's Hospital of Pittsburgh. His research focuses on basic virology and viral pathogenesis.

A reception with light refreshments will follow the talk.
