

Genome Stability Program

Work-in-Progress

September 2020

Schedule

Wednesdays
9:00-10:00 AM

September 9, 2020

Norie Sugitani Chiba, Ph.D.

Department of Radiation Oncology, School of Medicine
(Dr. Chris Bakkenist Lab)

“Effects of ATR Kinase Inhibition on CD8+ T cells”

September 16, 2020 No WIP - EMGS Conference

September 23, 2020

Frank Vendetti, Ph.D.

Department of Radiation Oncology, School of Medicine
(Dr. Chris Bakkenist Lab)

ATR inhibition modulates anti-tumor immune responses following radiation

September 30, 2020

Denise Risnik, PhD

Department of Pharmacology and Chemical Biology, School of Medicine
(Dr. Lin Zhang Lab)

“Mechanisms behind immunogenic cell death induced by Cetuximab and FOLFIRI in colorectal cancer”

Via ZOOM-details forthcoming via e-mail

PLEASE NOTE: Registration is mandatory/required for September WIPs. You only need to register once for the 3 September WIPs.

Hosted by: Drs. Ben Van Houten and Patty Opresko
