

Unraveling cancer genomics

Save the date

Oncomine Days: Clinical Oncology Education Series

Thursday, December 5, 2019

Location: UPMC Shadyside Hospital - West Wing
Classroom A/B
5230 Centre Avenue, Pittsburgh, PA 15232

Time: 8:30 a.m. - 4:00 p.m.

Please Join Thermo Fisher, UPMC, and the sciVelo/Innovation Institute for a day of seminars focusing on next generation sequencing for clinical and translational research. Dr. Steve Shapiro, UPMC's CMO/CSO will kick off the day, followed by seminars related to precision genomics, immuno-oncology, and immune response profiling. During lunch, learn more about how NGS has been implemented at UPMC for solid tumor profiling and the impact it has on patients and treatment selection. Finish off the day with learning more about the use of methylation as an important biomarker for prostate cancer and other indications.

Full agenda to follow.
